Possible extra saving (not already in the total) **\$936**

Guest account: Guest (external) account with a paid license. Guests usually work in your tenant without one; check before removing.

Shared mailbox: Shared mailbox with a paid license. Not needed under 50 GB unless it has an archive or litigation hold.

Room mailbox: Room or equipment mailbox with a paid license. Resource mailboxes usually don't need one.

Methodology

A user is counted as dormant when the account is disabled, or has no activity in the last 90 days. Activity was determined via Microsoft 365 usage reports. Prices are public list-price estimates (USD/user/month) and should be adjusted to your actual contract for exact figures. Guest accounts are users of type Guest. Mailbox types, sizes and archives come from Microsoft 365's mailbox usage report, which Microsoft refreshes every day or two, so a brand-new mailbox may not appear yet. A mailbox over 50 GB or with an archive needs a license and isn't counted as a saving. This scan is read-only and stores no tenant data.
